## Experience

**Meta** Jan 2017 – May 2026 · 9yrs 5mos

### Principal Product Designer · Horizon Games 10mos

- Led a cross-org design sprint across Facebook, Instagram, Horizon, and central product teams to solve a paradigm-breaking identity challenge: coexisting a second profile and separate social graph inside apps built around a single identity. Aligned directors and VPs across all four teams on the direction.

### Staff Product Designer · Quest VR (Oculus) 1yr 11mos

- Set direction and strategy for Quest VR social features; guided senior designers through execution.
- Redesigned Quest VR's social privacy settings to simplify a fragmented model, navigating a complex GDPR-compliant migration for users with conflicting existing settings; shipped Joinable Status, driving a 300% increase in players joining friends' active games.

### Product Design Manager · Quest for Business 1yr 2mos

- Managed a team of 6 delivering Quest for Business VR experiences, including the identity challenge of coexisting enterprise and personal accounts on a single device while preserving personal privacy from employer access.

### Staff Product Designer · Portal 1yr

- Redesigned all identity and login flows on Portal for the Meta Accounts migration; partnered with the central team to evaluate platform requirements against Portal's user base and successfully advocated to deviate from requirements that would have degraded the experience.
- Designed Household Mode, a parental control feature restricting app and contact access behind account authentication.

### Senior Product Designer · Portal 2yrs 4mos

- Shipped Facebook Watch, Facebook Live, Notes, and AI voice assistant features on Portal and Portal TV.
